RESEARCH Shows

In a digital learning environment consisting of a variety of potential digital distractions such as gaming, social media and videos,

“...skills in the digital environment are quite difficult to achieve.”

-- Multidisciplinary Digital Publishing Institute, 2021

Only Deledao has patented ActiveScan™ technology that blocks digital distractions in real time.

Your students are extremely adept at ‘working around’ outdated keyword and URL blocked lists!

- ONLY Deledao InstantAI™ analyzes webpages in real time, sees online content the same way a human being can and instantly shuts down distracting content!
- Instantly understands contextual nuance, ambiguity and inventive spelling keeping students on task and engaged in learning.
- Keeps students on target to meet learning goals while guiding them to develop digital skills and take more responsibility for their online behaviors.

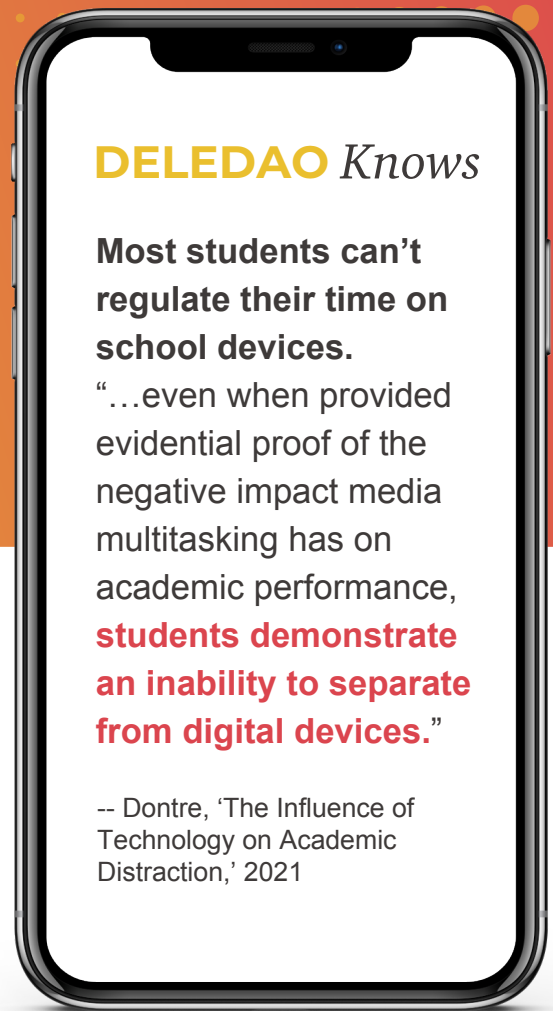

Remember!

Only Deledao ActiveScan™ patented InstantAI™ technology can **instantly block or blur** digital distractions and inappropriate content to keep your students on task!

Only Deledao ActiveScan™ ensures that your students don't get lost down gaming or social media *'rabbit holes!'*

Deledao patented InstantAI™ technology can help you change the rules of the game and focus on what you do best: teaching.

- **Deledao GameChanger™** uses browser technology to instantly analyze text, images, keyboard and mouse movements that indicate game play and takes your students back to your assigned lesson content.
- **Deledao MediaMonitor™** instantly evaluates Google sites, YouTube and other social media your students often visit. It automatically analyzes, screens and blocks distracting content the very second a student visits a new page.

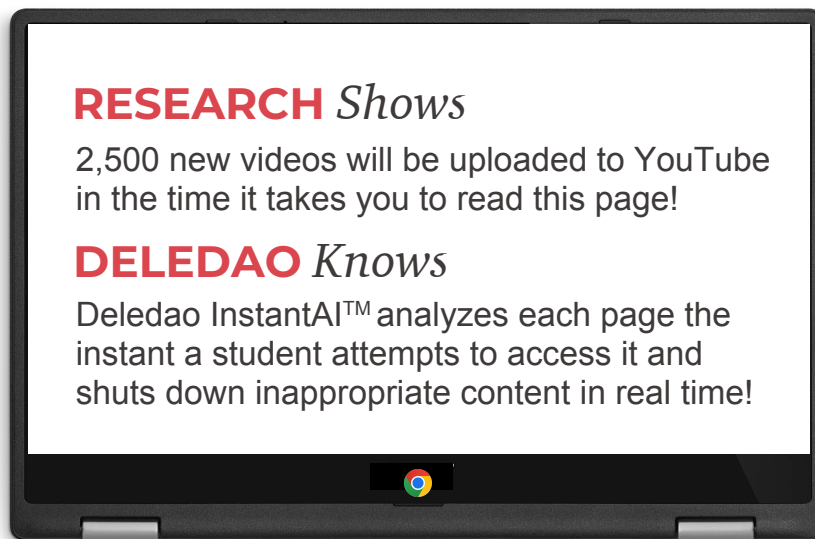

Remember!

Only Deledao ActiveInsights™ patented InstantAI™ technology can reduce student online distractions by over 40% in only 4 weeks!
